

FUT SERIES Multi-towel Folder model

10BT

[CAPACITY]
650/h

High-quality folding

Multifunctional touch panel

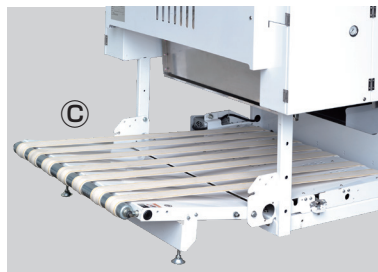

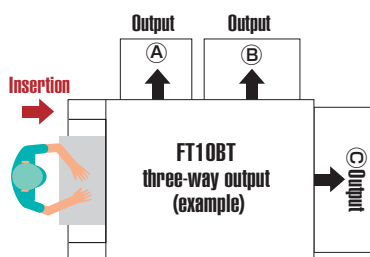

Folding of in-facility wear capability

Unique method adopted for the insertion part.

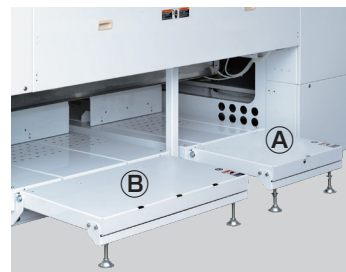

Items can be inserted easily and gently through the adoption of a unique method as the belt moves after each item is set.

Three types of stack tables are included as standard.

Three types of towels can be discharged in three directions to reduce the need for sorting after output.

Rear side output port

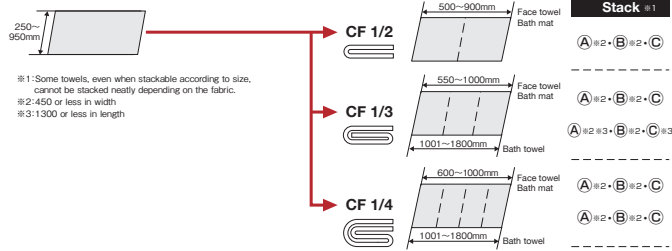

Left side output port

※ On (B), two-row stacking capability when the finish length is 350mm or less.
